1. Pressreader
PressReader provides online access to today’s newspapers from over 100 countries around the world in over 60 languages in a full-color, full-page format. The ever-expanding collection currently includes over 6,000. Just like reading the familiar print edition, viewers can browse articles and other key content, such as pictures, advertisements, classifieds, and notices. Customers have the ability to perform keyword searches across all titles and the entire archive.

PressReader provides advanced digital features such as interactive tables of content, foreign language translation in 17 different languages, cross title searching, sharing of articles through email or blog postings, bookmarks and text-to-voice conversion.
