About KDI Central Library

KDI Library has been supporting comprehensive research for national economic policy as well as Economics education. KDI School Library has been contributing toward training experts in the field of Development Economics by providing academic research support for faculty and students. KDI Archives has collected, managed and preserved the records produced by the Institute.

In November 2014, KDI and KDI School have begun sharing one campus as these institutions relocated to Sejong from the Hongneung Research Complex in Seoul, where they were distant from each other.

Use the tab to search materials by Program, Course and Faculty.
Students and faculty of KDI School can use Course Reserves by visiting the Central Library on the 3rd floor or the library website.

Databases

Databases are collections of scholarly materials which contain bibliographical information or full-text of journal articles, conference proceedings, magazines, reports, etc. in particular subjects. You can access the web page of international organizations and various databases to which the KDI Central Library subscribes to. Also, if you can see the "Include EDS OneSearch" icon in the remark column, it means you can get obtainable search results from a resource equivalent, though both the onesearch result and access the resource page through the link on this database menu. However, if you cannot find the "Include EDS OneSearch" icon in the remark column, you need to use the link on this database page to access the databases that you want.

Search the publications

If you access the Search > Publication Finder, you can find e-publication by searching a title keyword.
Explore Korean and international digital news and magazines.
